

Planning for Our Future

Bowmer + Kirkland has been selected by the Department for Education (DfE) as the main contractor on plans to redevelop St Ignatius College, Enfield.

Artist's impression of proposed visitor entrance

Some of the current buildings at the school are in a poor condition and approaching the end of their useable life span. The proposals include the demolition of all teaching buildings and the construction of two new buildings - the main school and a sports centre. The locally listed Lodge House and Gothic House (Caretakers House) are retained.

The DfE has tasked Bowmer + Kirkland with developing a scheme that will better accommodate students, staff and the community; enable the school to remain operational on-site during construction; achieve net zero carbon in operation for new buildings; and provide improved facilities.

The project team has been working closely with the school in preparation of the proposals and would like to invite the local community to review the plans at a public exhibition or via our website.
